SCIENTIA HORTICULTURÆ

Contents of *Scientia Horticulturae*, Volume 60

VOL. 60 NOS. 1–2 DECEMBER 1994

Contact coiling of cucumber tendrils and the establishment of new supporting materials
K.C. Yoo, C.S. Jeong, H.T. Lim and Y.N. Song (Chuncheon, Republic of Korea) 1

Relationship between vegetative flushing and flowering of *Macadamia integrifolia* in Hawaii
M.A. Nagao, E.B. Ho-a, J.M. Yoshimoto, E.R. Yoshimura, E. Notley (Hilo, HI, USA) and L.H. Fuchigami (Corvallis, OR, USA) 9

Genetic analysis of phosphoglucoisomerase isozymes in 'true citrus fruit trees'
M.M. Rahmana (Gazipur, Bangladesh), N. Nitob and S. Isshikib (Saga, Japan) 17

The effect of autumn and spring temperature on fruit set and on the effective pollination period in apple and pear
J. Tromp and O. Borsboom (Wageningen, Netherlands) 23

Effect of repeated sprays of 6-benzyladenine on the formation of sylleptic shoots in apple in the fruit-tree nursery
S.J. Wertheim (Wilhelminadorp, Netherlands) and E.N. Estabrooks (Fredericton, N.B., Canada) 31

Effects of light intensity and CO_2 concentration on growth of banana plants (*Musa* AAA, cultivar 'Petite Naine') in vitro and subsequent growth following acclimatization
C. Navarro (Yucatán, México), C. Teisson, F. Côte and J. Ganry (Montpellier, France) 41

Optimal temperature regimes for a greenhouse crop with a carbohydrate pool: A modelling study
I. Seginer (Haifa, Israel), C. Gary and M. Tchamitchian (Montfavet, France) 55

Effect of paclobutrazol treatment on the growth and first flowering of intact and autografted seedlings of mango
E. Salomon and O. Reuveni (Bet Dagan, Israel) 81

The influence of water deficit on water relations, photosynthesis and fruit growth in Asian pear (*Pyrus serotina* Rehd.)
M.H. Behboudian, G.S. Lawes and K.M. Griffiths (Palmerston North, New Zealand) 89

Growth, plant water relations, photosynthesis rate and accumulation of proline in young carambola plants in relation to water stress
M.R. Ismail (Selangor, Malaysia), S.W. Burrage (Ashford, Kent, UK), H. Tarmizi and M.A. Aziz (Selangor, Malaysia) 101

Distinction of white freesia (*Freesia* Eckl. ex Klatt) varieties by measuring colour with the aid of a chromameter
J.W. Van Eck and A.A.J.M. Franken (Wageningen, Netherlands) 115

Effects of irrigation frequency on root formation and shoot growth of spray chrysanthemum cuttings in small jute plugs
F. Buwalda (Aalsmeer, Netherlands) and K.S. Kim (Suwon, Korea) 125

Elsevier Science B.V.

Short communications

Vegetative and flowering responses of mimulus to photoperiod and temperature
R.H. Merritt (New Brunswick, NJ, USA) and H.C. Kohl, Jr. (Davis, CA, USA) 139

A practical method for the production of flowering Easter lilies from callus cultures
E.R.M. Wickremesinhe, E. Jay Holcomb and R.N. Arteca (University Park, PA, USA) 143

Stem swelling of stem mustard, as affected by temperature and growth regulators
D. Guo, Y. Jiang, G. Zeng and G.A. Shah (Zhejiang, China) 153

Response of onion to soil solarization and organic mulching in semi-arid tropics
I.A. Adetunji (Maiduguri, Nigeria) 161

Pollen formation and fruit set in some cultivars of *Heliconia psittacorum*
Y.H. Lee, N.Y. Ng and C.J. Goh (Singapore, Singapore) 167

Book reviews

Poinsettia production 173

Diseases of tropical fruit 174

Agricultural field experiments 176

VOL. 60 NOS. 3–4 JANUARY 1995

Effects of CO_2, temperature and their interaction on the growth, development and yield of cauliflower (*Brassica oleracea* L. *botrytis*)
T.R. Wheeler, R.H. Ellis, P. Hadley and J.I.L. Morison (Reading, UK) 181

Analysis of plants obtained by embryo rescue from an interspecific *Actinidia* cross
C.F. Harvey, L.G. Fraser, J. Kent, S. Steinhagen, M.A. McNeilage and G. Yan (Auckland, New Zealand) 199

Effect of prolonged cold storage on the production capacity of strawberry plants
F. Lieten (Meerle, Belgium), J.-M. Kinet and G. Bernier (Liège, Belgium) 213

Free amino acids as indicators of little leaf in zinc deficiency in the pistachio (*Pistacia vera* L. cultivar 'Kerman')
D.J. Durzan (Davis, CA, USA) 221

A comparative study of young 'Thompson Seedless' grapevines under drip and furrow irrigation. I. Root and soil water distributions
F. Araujo, L.E. Williams, D.W. Grimes and M.A. Matthews (Davis, CA, USA) 235

A comparative study of young 'Thompson Seedless' grapevines (*Vitis vinifera* L.) under drip and furrow irrigation. II. Growth, water use efficiency and nitrogen partitioning
F. Araujo, L.E. Williams and M.A. Matthews (Davis, CA, USA) 251

Flowering and fruiting in 'Patterson' apricot (*Prunus armeniaca*) in response to postharvest application of gibberellic acid
S.M. Southwick, J.T. Yeager and H. Zhou (Davis, CA, USA) 267

Fifteen years of observations on the agronomic behaviour of seven heat-treated pear tree cultivars
J. Lemoine and J.C. Michelesi (Beaucouze, France) 279

A rapid field method for measuring net assimilation rate–stomatal conductance relationship: a feasibility test using grapevine leaves
A. Naor (Kazrin, Israel) and R.L. Wample (Prosser, WA, USA) 287

The effect of hydrogen cyanamide (Dormex) on flowering and cropping of different apple cultivars under tropical conditions of sub-optimal winter chilling
J.E. Jackson and M. Bepete (Marondera, Zimbabwe) 293

Morphological and cytological characteristics of protoplast-derived plants of statice (*Limonium perezii* Hubbard)
H. Kunitake (Chiba, Japan), K. Koreeda (Shizuoka, Japan) and M. Mii (Chiba, Japan) 305

Morphological responses of bedding plants to three greenhouse temperature regimes
R.H. Merritt and K.C. Ting (New Brunswick, NJ, USA) 313

The effect of sucrose on the flower bud opening of 'Madelon' cut roses
D. Kuiper, S. Ribot, H.S. Van Reenen (Wageningen, Netherlands) and N. Marissen (Aalsmeer, Netherlands) 325

Short communications

Effects of CPPU on fruit set and fruit growth in Japanese persimmon
N. Sugiyama and Y.T. Yamaki (Tokyo, Japan) 337

Influence of fruit ripeness at the time of seed extraction on pepper (*Capsicum annuum*) seed germination
J. Cavero, R.G. Ortega and C. Zaragoza (Zaragoza, Spain) 345
